## EXO HANDGUN COATING PROGRAM

We will coat your new or used handgun slide and barrel with our patented EXO Nickel Boron process. EXO is an extremely hard finish with a very low coefficient of friction. EXO is durable and guaranteed not to flake, chip or wear off for as long as you own the weapon.

To order, enclose completed order form with your slide and/or barrel and ship to us at address listed below.

### Program Details:

- We coat most handgun models (Smith & Wesson, HK, Sig Sauer, Springfield, Colt 1911, etc.). We do not coat Taurus, Kimber, Walther, or revolvers or any sort.
- We will coat the slide and barrel only. However, if the extractor is requested, we can do so at no extra charge. Note: if requesting extractor notate the request on order form.
- We do not accept frames or any sort.
- Acceptance subject to incoming inspection. If we feel we cannot perform the work due to the state of the material, we will contact you and inform you of the issues and reasoning.
- Note: Barrels are coated inside and out, we have found no improvement or change in accuracy. However, the ease of cleaning the rifling is much improved.

### Price and Turnaround:

- \$125 each component or \$200 for both – price includes breakdown of the slide and removal/installation of sights. We will also install new sights if they are included in the shipment, at no extra cost to you.
- Pricing Note: if you send two slides, the cost is \$200. If you send two barrels the cost is \$200. If you send two slides and two barrels, the cost is \$400.00.
- Price includes free return shipping FOB Palm City, FL USPS.
- Turnaround time is 14-21 business days or less from date of receipt.

### Benefits:

- Increased corrosion resistance
- Increased wear resistance
- Ease and less cleaning required
- "2-tone appearance"

*Liability Disclaimer: "UCT guarantees the performance of our coating but does NOT assume any additional liability in terms of the function of the components or of the weapon itself."*
